PROFESSIONAL SUMMARY

Human-Computer Interaction graduate with hands-on experience in product design and UX/UI. Skilled in user research, information architecture, user flows, wireframing, prototyping, usability testing, and design systems. Experienced in translating user needs and business requirements into clear and user-centered digital experiences.

EXPERIENCE

Product Design Intern – Easy Pay (Feb 2025 – Aug 2025)

Conducted user research and analyzed user journeys across Easy SoftPOS, Easy Fuel, Easy Kiosk, and Customer Display. Designed wireframes and interactive prototypes to simplify workflows and improve product usability. Developed reusable UI components and contributed to interface consistency across multiple products. Conducted usability evaluations and refined user flows based on findings and user needs. Collaborated with designers and development teams to support the implementation of user-centered solutions.

PROJECTS

Mishkat – Graduation Project | Product Design & UX Research (mishkat.us)

Designed an Arabic digital wellbeing experience focused on supporting students through short, user-centered activities. Conducted user research and translated findings into personas, user journeys, information architecture, and user flows. Created wireframes, high-fidelity prototypes, and a reusable design system in Figma. Evaluated the experience through usability testing and iteratively refined the interface based on user feedback. Collaborated with the team on the design and implementation of the mobile application.

SNB Bank UI Enhancement – User Interface Design (Mar 2024 - May 2024)

Refined the interface and improved usability through structured design enhancements.

Smart Energy Tracking System "WATT" – Prototyping Methods (Sep 2024 - Nov 2024)

Designed a system to track and optimize household energy consumption.

EDUCATION

Umm Al-Qura University - BSc in Human-Computer Interaction in Software Engineering (2022 – June 2026)

GPA: 3.54 / 4.00

Honors: Excellent with Second Honors

SKILLS

• Cross-functional Collaboration • Problem-Solving • Communication • Presentation • Time Management • Self-Learning

COURSES AND CERTIFICATES

Banque Saudi Fransi University Program (Feb 2024 – Dec 2025)

Participant in a long-term mentorship and professional development program offered by Banque Saudi Fransi in collaboration with the university.
